

App\Http\Controllers  
\Controller

```
graph BT; A["App\Http\Controllers\\ModuleSubscriptionController"] --> B["App\Http\Controllers\\Controller"]
```

The diagram illustrates an inheritance relationship. A light gray box at the bottom represents the parent class, 'App\Http\Controllers\\ModuleSubscriptionController'. A blue arrow points upwards from this box to a white box at the top, which represents the child class, 'App\Http\Controllers\\Controller'. Both boxes have a black border.

App\Http\Controllers  
\ModuleSubscriptionController
