

App\Http\Controllers  
\Controller

```
graph BT; A[App\Http\Controllers\EmpresaUserController] --> B[App\Http\Controllers\Controller];
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray box representing the base class, `App\Http\Controllers\EmpresaUserController`. A blue arrow points upwards from this box to a white box at the top, representing the derived class, `App\Http\Controllers\Controller`. This indicates that `EmpresaUserController` inherits from `Controller`.

App\Http\Controllers  
\EmpresaUserController
