

App\Http\Controllers  
\Controller

```
graph BT; A[App\Http\Controllers\nCustomerAvencaController] --> B[App\Http\Controllers\nController];
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray-shaded box representing the base class, 'App\Http\Controllers\nCustomerAvencaController'. A blue arrow points upwards from this box to a white box at the top representing the derived class, 'App\Http\Controllers\nController'. Both boxes have a black border and contain their names on two lines.

App\Http\Controllers  
\CustomerAvencaController
