

App\Http\Controllers
\Controller

```
graph BT; A[App\Http\Controllers\\ProcessoLicenciamentoMercadoriaController] --> B[App\Http\Controllers\\Controller];
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray-shaded box representing a specific controller: 'App\Http\Controllers\\ProcessoLicenciamentoMercadoriaController'. A blue arrow points upwards from this box to a white box at the top representing the base controller: 'App\Http\Controllers\\Controller'.
