

App\Http\Controllers
\Controller

```
graph BT; PasswordController[App\Http\Controllers\\Auth\\PasswordController] --> Controller[App\Http\Controllers\\Controller];
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray box representing the 'App\Http\Controllers\\Auth\\PasswordController' class. A blue arrow points vertically upwards from this box to a white box above it, representing the 'App\Http\Controllers\\Controller' class. This indicates that PasswordController inherits from the base Controller class.

App\Http\Controllers
\Auth\\PasswordController
