

App\Http\Controllers
\Controller

```
graph BT; CedulaController[App\Http\Controllers\CedulaController] --> Controller[App\Http\Controllers\Controller];
```

The diagram illustrates a class inheritance relationship. At the bottom is a gray-shaded box representing the base class, 'App\Http\Controllers\CedulaController'. A blue arrow points vertically upwards from this box to a white box at the top representing the derived class, 'App\Http\Controllers\Controller'. Both boxes have a black border and contain their respective class names on two lines.

App\Http\Controllers
